

## "Healthy Refreshments for you and the environment"

### **Experience**

We have been selling our freshly squeezed lemonade from our Lemon shaped kiosks since the 1970s and attend around 50 different fairs, festivals and concerts every summer in the GTA alone!!!

### **Service**

We specialize in festivals, fairs and concerts but can cater your corporate function or private party!!! We are also working on offering an LLBO service.

### **Community**

Every season we donate around 4000 beverages to fairs and festivals. As part of our service we offer your festival volunteers and staff a limited number of complimentary beverages.

### **Wholesome goodness**

Every cup of Lemonade is 100% freshly squeezed made with simple natural ingredients; cane sugar, filtered water, ice, and fresh fruit.

### **GREEN**

Everything we sell is compostable. When our customers finish there beverage they throw there waste in the green bin..... Not the garbage!

### **Equipment**

For us to operate at your venue with 1 kiosk we need at least 8ft by 8ft.

### **Insurance**

Our liability insurance coverage is for \$2,000,000 and named certificates are available upon request.

# Menu
